Profile Summary

Full Stack Developer with experience building modern web applications using the MERN stack (MongoDB, Express.js, React.js, Node.js). Skilled in developing responsive user interfaces with React and Next.js and building RESTful APIs using Node.js and Express. Experienced in integrating MongoDB databases and developing real-world applications such as dashboards, CRM systems, and internal business tools.

Skills

Languages: Python, JavaScript

Frameworks/Libraries: React.js, Next.js, Node.js, Express.js

Databases: MongoDB, MongoDB Atlas

Tools: Git, GitHub, Postman, VS Code

Experience

Venturemond, Full Stack Developer Intern — Nov 2025 - Present

- Built a full-stack Lead Management System using React, Node.js, Express.js, and MongoDB to replace manual Google Sheets lead tracking with a centralized internal dashboard.
- Integrated external website inquiry pipelines by connecting multiple MongoDB databases to display incoming leads from Venturemond and Stacli websites.
- Redesigned and enhanced the Venturemond website by improving UI/UX, adding new pages, and implementing additional sections.
- Designed and developed the Stacli company website from scratch with a responsive UI and modern layout.
- Diagnosed and fixed backend email functionality to restore automated email workflows.
- Managed production updates by connecting to the AWS EC2 server via SSH and deploying changes using Git pull and frontend build updates.

Projects

VM Lead Management System, **Live Link**

- Built a full-stack internal CRM platform to replace Google Sheets lead tracking with a centralized dashboard
- Integrated external website contact form data by connecting to a secondary MongoDB database and displaying VentureMond and Stacli leads inside the dashboard.
- Implemented role-based access control (Admin vs User) with secure API and database-level filtering to ensure users only access permitted lead data.

VentureMond Website, **Live Link**

- Redesigned the VentureMond website with improved UI/UX and added new sections including Case Studies, Resources, and Portfolio pages.
- Developed backend APIs to handle contact form submissions and store inquiries in MongoDB Atlas.
- Implemented automated email notifications using Nodemailer for admin alerts and user confirmation.

Stacli Website, Live Link

- Designed and developed the Stacli company website with responsive UI and animated sections.
- Built backend APIs to capture contact form leads and store them in MongoDB Atlas.

Education

Siddharth Institute of Engineering and Technology, Puttur — Aug 2023– April 2026
Bachelor's in CSM (Computer Science and ML & AI)

Siddartha Institute of Science and Technology, Puttur — Dec 2019 – May 2022
Diploma in Mechanical Engineering
